## **DOUBLE DEGREE PROGRAM WITH UNIVERSITÉ DE LIÈGE**

### **PROGRAM DEVELOPMENT**

This Double Degree Agreement is addressed to the students enrolled in the “Structural Engineering” and “Ingénierie des Structures” master’s programs within the Faculty of Engineering in Foreign Languages (henceforth FILS) of the Technical University of Civil Engineering Bucharest (henceforth UTCB) on the one hand, and, on the other hand, to students enrolled in the “Ingénieur civil en constructions” master’s program from the Faculty of Engineering of Université de Liège.

The mobility period will be completed throughout the second year of the master’s program and includes the defense of the dissertation at the partner institution, the mobility being possible after obtaining 60 ECTS in the first year of the master’s program from the home university and after the selection validated by both universities.

Under the conditions specified above and upon graduation, the students participating in the program will obtain the Master's degrees from Université de Liège and from the Technical University of Civil Engineering Bucharest. During the mobility, students are subject to the study regulations in force at the host institution. The language of teaching and learning for the second year of the master’s program at Université de Liège is English. The two universities validate the results obtained by students in the home institution and in the partner institution based on the ECTS system. The overall equivalence of the studies is done by the dean of the faculty who organizes the respective master's program. Tuition fees will be paid at the home institution. Having obligations and rights identical to those of local students, students enrolled in a Double Degree program will pay the various administrative fees according to the regulations of the partner university. The number of available places is determined each year by the two institutions. UTCB students must have a European Insurance Card valid for the period they are in Belgium.

### **TERMS AND CONDITIONS OF ELIGIBILITY**

- student with complete passes at the time of selection and departure;
- knowledge of English - minimum level required: B2 according to CEFR;
- the completion of the course “Free Surface Flow” in the second semester of the first year of the master’s program;
- knowledge of the French language is an advantage.

### **SELECTION OF CANDIDATES**

The students are selected by the committees organized by the home institutions and are validated by the committees from the partner university. The selection must ensure that the candidate is capable of successfully evolving in an international university context. Theoretically, the selection of candidates takes place in March (the year X – 1) for the year X. The candidates declared admitted will follow the standard on-line registration procedure at the Université de Liège by accessing the link:

#### FINANCING THE MOBILITY PERIOD AND FEES

Students participating in this Double Degree program are eligible for an external mobility scholarship from UTCB funds during their mobility period and for a scholarship financed by the ERASMUS+ program. The ERASMUS+ scholarship is awarded in accordance with the regulations, calendar and the methodology of this program.
